Joint meeting

Discover SAM 2019 Scientific Highlights

The **EAACI/ESCD Skin Allergy Meeting (SAM)**, taking place on 4-6 April 2019 in Munich, Germany, is designed to become the **key event of the year** in the area of skin allergy. Speakers from top-level international institutions will present up-to-date research covering basic, translational and clinical aspects. For the first time, besides focusing on acquiring theoretical knowledge, the meeting will also enable you to receive **practical trainings**; e.g on how to perform patch tests, skin prick tests and intradermal tests. In addition, you will be able to attend teaching case reports and oral presentations.

The SAM programme has been conceptualised to empower you with the **knowledge and skills needed to ensure optimal clinical practice**, enabling your patients to receive the best quality of care.

Some of the **highlights and topics** that will be covered are:

- Atopic eczema
- Biologics in allergic skin disease
- Drug allergy
- Allergic contact dermatitis
- Urticaria and Mast Cell Diseases
- Teaching case reports
- Pro and con sessions
- Poster discussions
- Practical courses on skin tests, physical provocation tests, scoring of allergic skin diseases

Submit your abstracts by the deadline, 23 January 2019.
